Re: Midwestern Gas Transmission Company
2017 System Flow Diagram: FERC Form No. 567
Attachment Contains CEII

Dear Ms. Bose:

Pursuant to section 260.8 of the Federal Energy Regulatory Commission's (Commission) regulations, Midwestern Gas Transmission Company (Midwestern) hereby submits for filing its annual System Flow Diagram, which reflects operating conditions on its transmission system for the twelve month period ending December 31, 2017. For purposes of system peak deliveries, Midwestern used the heating season ending March 31, 2018.

Midwestern requests that its attached System Flow Diagram be treated as Critical Energy Infrastructure Information (CEII) pursuant to section 388.112 of the Commission's regulations. Midwestern submits that this System Flow Diagram meets the definition of CEII as found at section 388.113(c) of the Commission's regulations. Accordingly, Midwestern is filing its System Flow Diagram as CEII, and each page of the data is clearly marked "**Contains Critical Energy Infrastructure Information (CEII) - Do Not Release.**"

Any questions regarding this filing may be directed to Denise Adams, Director of Rates and Regulatory Compliance, at (918) 732-1408 or denise.adams@oneok.com.

Respectfully Submitted,

/s/ Ron M. Mucci
